

# Ahmed Hakim

## Front-End Developer

### EXPERIENCE

#### USYTECH, CA, US (Remote) — Lead Front-End Developer

Jan 2015 - PRESENT

- Building (freelancing platform) using [React JS](#), [NextJS](#), [Redux](#).
- Building and releasing new features in [EagleRider](#) (bike rentals e-commerce).
- Leading stack migration to [React JS](#), [NextJS](#), and [Material-UI](#) from legacy [jQuery](#) and ruby server-side rendering.
- Planning migration milestones, shipping gradually migrated components to living code, and managing other FE devs efforts to achieve milestones.
- Enhancing checkout pages performance funnel, in these efforts, decreasing page load and perceived loading time, this resulted in increasing Avg session duration by **4.20%** and decreasing bounce rate by **8.79%** Eventually those wide changes resulted in avg increase of conversion rate by **10.70%**.

#### Hindawi (Acquired by Wiley), Cairo, Egypt — Front-End Developer

Mar 2014 - Jan 2015

- Cooperating with the Development and Mobile teams to fix issues in the Epub Generator and rendering.
- Refactoring the structure of Epub box and using oriented style, (As a result, the [CSS](#) diminished from **180k** to **5k** after refactoring, which made the books app render the Epub faster).

#### Softxpert, Alexandria, Egypt — Front-End Developer

Jan 2013 - Mar 2014

- Enhancing and fixing issues on 4 projects using [jQuery](#).
- Building [autolina.ch](#) (e-commerce) website to ([HTML/CSS](#) and [jQuery](#)).
- Designed and built a website for smart doc scanner(OCR) app using [HTML/CSS/JS](#) and [PHP](#) then converting it to WordPress theme [smartdocscanner.com](#).
